

Prafulla Chandra College launched 'e-Learning Management System' to support the students in preparing their lessons staying at their home, particularly at this lockdown period. This system will also be beneficial even when regular classes will be resumed. Students can use this system from their Computer, Laptop, smart Mobile Phone or Tab.

Students are advised to check Instructional Materials (Notes), PPT Class and Video Lesson Buttons for their e-Learning resources. All these materials will be daily updated by your teachers.
