About the Webinar

Commerce education encompasses diversified fields of education and research in different aspects of Accounting, Business Environment, Business and Commercial Law, Entrepreneurship Development, Economics, Finance, Marketing, Human Resource Management, Investment Research, Taxation and more. Its role in developing the required knowledge, attitudes, competencies and skills for efficient and effective management of business, trade, Industry at both micro and macroeconomic level is incredible and indispensable for any country or region. The pace of globalization, liberalization and privatization has tremendously influenced the need to explore the various dimensions of Commerce Education. Through this online career counselling and national level webinar, the honourable resource persons will enlighten us on the emerging innovative strategies in 'Commerce Education' and its role in the ever-dynamic business world to develop and nurture future entrepreneurs, e-commerce, finance professionals, innovators, managers and researchers with special reference to an emerging economy, like India.
